

Quad Preparation

August 2019

3D Printer

Files should be brought on a flash drive. The file types that are used are .stl and .obj.

The maximum size is 11 x 11 x 9 inches. The maximum printing time allowed is 2.5 hours. (Printing time can not be determined until item is seen.)

Roland Vinyl Cutter

Bring a silhouette image, saved on a flash drive as a .jpg or a .png. Have a close idea of what size you would like the image. (Maximum size is 12 x 12 inches.)

Mat Cutter

Bring in the actual picture you wish to mat. Have the dimensions of the frame you are going to use.

Heat Press

You will first need to cut out the image on the vinyl cutter. (See Roland Vinyl Cutter instructions, above.) Bring an item that is 100% cotton, poly/cotton blends, or 100% polyester.
