Quad Preparation

October 2019

Roland Vinyl Cutter

Bring a silhouette image, saved on a flash drive as a .jpg or a .png. Have a close idea of what size you would like the image. (Maximum size is 12 x 12 inches.)

Heat Press

You will first need to cut out the image on the vinyl cutter. (See Roland Vinyl Cutter instuctions, above.) Bring an item that is 100% cotton, poly/cotton blends, or 100% polyester.

3D Printer

Files should be brought on a flash drive. The file types that are used are .stl and .obj. The maximum size is 11 x 11 x 9 inches. The maximum printing time allowed is 2.5 hours. (Printing time cannot be determined until item is seen.)
